# INVESTOR UPDATE 31 MAR

**1ST QUARTERLY REPORT** 

# FROM THE DESK OF THE CHAIRMAN

# Dear Shareholders,

We are pleased to announce that PPB Group achieved a pre-tax profit of RM303 million for the period ended 31 March 2010, up 14% from the previous corresponding period. The higher profits from the grains, flour and feed milling were due mainly to lower raw material costs despite lower flour selling prices. Film exhibition and distribution also registered higher profits due to contribution from new cinemas and higher admissions resulting from stronger movie titles.

PPB Group's revenue of RM504 million was marginally higher compared with RM495 registered in the same period last year mainly due to higher revenue recorded by the film exhibition and distribution division, off-set by lower revenue from the environmental engineering, waste management and utilities division as new contracts have not commenced during the period.

Profit for the period increased to RM1.128 billion with the gain of RM838 million from the completion of the disposal of the Group's sugar-related assets in early January 2010. Earnings per share for the period ended 31 March 2010 stood at 94.93 sen compared with 22.93 sen achieved in the same period last year.

### **HAPPENINGS**

PPB held its first Press and Analyst Briefing for the year on 5 March 2010, to review the final results for year 2009 and other latest developments in the Group. The Briefing was well received by analysts, fund managers and press from the local publications.

Golden Screen Cinemas Sdn Bhd, a 99% indirect subsidiary of PPB Group, hosted the Hong Kong Film Festival 2010 held from 26 to 28 March 2010 at Kuala Lumpur which was co-organised by the Hong Kong Economic and Trade Office (HKETO) in Singapore and 988 Radio Station Malaysia. Eight (8) quality Hong Kong films were screened at GSC's key cinemas during the 3-day period.

# **CSR ACTIVITIES**

Committed to care for the environment, PPB started the year with its first tree planting project at Kuala Selangor Nature Park where staff and their family members planted a total of 250 saplings at the mangroves of Kuala Selangor Nature Park.

Not forgetting the underprivileged groups during the main festivals, PPB Group organized several Chinese New Year celebrations starting with the children of Chempaka Welfare Home located in Petaling Jaya and three old folks home in Raub, Pahang namely, Sg Ruan Old Folks Home, Sg Lui Old Folks Home and Kg Sempalit Old Folks Home.

# PROSPECTS FOR 2010

The global economic recovery is expected to be slow and uncertain in 2010 and fluctuations in commodity prices and rising freight rates may impact PPB Group results. However, PPB Group will continue to manage these factors and the results for the remaining period of 2010 should remain satisfactory. Profit for 2010 will be higher than that of 2009 with the gain from the sale of sugar related assets.

# "TOGETHER WE CARE, TOGETHER WE MAKE A DIFFERENCE . . ."

On 23 January 2010, 47 staff of PPB Group and their families woke up early on their day off to participate in PPB's first tree planting project.

The event which is part of PPB's CSR activity for the environment was organised to bring together the staff of PPB and their families and friends for a good cause and in this case to make a difference in Kuala Selangor Nature Park, a beautiful Park well managed by Malaysian Nature Society (MNS) in collaboration with the Selangor State Government.

Upon arrival at 9 am at the Park, the participants had a hearty breakfast before adjourning to the auditorium where Ms Koh Mei Lee, Senior Manager (Corporate Affairs) of PPB, welcomed the participants and thanked them for their volunteerism. Mr Raj, the Senior Ranger from MNS gave a 30-minute lively talk on how human lives and mangroves are interconnected. From his talk, we learnt that long tailed monkeys are one of the most intelligent monkeys which are capable of mimicking the actions of MNS workers. Thereafter, the participants in 2 groups donned their gloves and Wellington boots, to walk to the mangroves located at the border of the Park.

### **CSR ACTIVITIES**

During the walk, MNS guides showed the participants various types of crabs, birds as well as plants that produce soap, salt and many other interesting facts of nature. At the mangroves, the participants laboured for an hour planting 250 saplings. It was fun and quick as everyone chipped in with some families happily creating their very own family plots. After the mangrove planting, the staff continued their tour around the Park and witnessed a breathtaking sight of the Straits of Melaka, a white eagle, various migrating birds, mudskippers and different multi-coloured species of crabs. Drenched with sweat after a long walk in the sun, the participants showered before tucking into local dishes catered by MNS. After lunch, the participants shopped at the Kuala Selangor wet market known for their fresh fish and prawns. Cockle harvesting was the next highlight for the day and the participants were taken in 5 boats to Sungai Buloh Sasaran to harvest cockles which they took home for free. After a hard day's work, everyone was treated to a delicious seafood dinner at the River View Restaurant.

In conclusion, the whole event was tiring but enjoyable. It was an eyeopener for the city folks and many looked forward to more nature events!

|                      |   |

The adoption of the above new/revised FRSs and Amendments to FRSs does not have any significant financial impact on the Group except for the following:-

### FRS 101: Presentation of Financial Statements

FRS 101 requires an entity to present, in a statement of changes in equity, all owner changes in equity. All non-owner changes in equity (ie. comprehensive income) are required to be presented in one statement of comprehensive income or in two statements (a separate income statement and a statement of comprehensive income). Components of comprehensive income are not permitted to be presented in the statement of changes in equity.

In addition, a statement of financial position is required at the beginning of the earliest comparative period following a change in accounting policy, the correction of an error or the reclassification of items in the financial statements.

### Amendment to FRS 117 Leases

Prior to the adoption of the Amendment to FRS 117, leasehold land that has an indefinite economic life and with title that is not expected to pass to the lessee by the end of the lease term is classified as operating lease. Upfront payments for the rights to use the leasehold land over a predetermined period are accounted for as prepaid lease payments and amortised on a straight-line basis over the remaining period of the lease.

Upon adoption of the Amendment to FRS 117 in relation to classification of leasehold land, the Group reassessed the classification of leasehold land as a finance lease or an operating lease based on the extent of risks and rewards associated with the land. The Group has determined that all leasehold land of the Group are in substance finance leases and has reclassified its leasehold land from prepaid lease payments to property, plant and equipment.

### Amendment to FRS 140 Investment Property

Prior to the adoption of the Amendment to FRS 140, assets under construction for future use as investment property were classified as property, plant and equipment.

Upon adoption of the Amendment to FRS 140, these assets are reclassified to investment properties.

The reclassification has been made retrospectively in the Statement of Financial Position and the following comparative figures have been restated as follows:-

### B. BMSB Listing Requirements (Part A of Appendix 9B)

### B1. Review of Performance for the financial year-to-date

Group revenue of RM504 million for the first quarter ended 31 March 2010 was marginally higher than the RM495 million in the same period last year. The increase was mainly due to higher revenue recorded by the film exhibition and distribution division, off-set by lower revenue from the environment engineering, waste management and utilities division as no new contracts were secured during the quarter.

Group profit before tax of RM303 million represents an increase of about 14% over the corresponding period last year. Despite lower flour selling prices, the flour and feed milling division contributed higher profits due to lower raw material costs whilst film exhibition and distribution registered higher profits arising from higher admissions due to better movie titles released.

The completion of disposal of the Group's sugar-related assets in early January 2010 resulted in a gain of RM838 million recognised in the first quarter under review.

### B2. Material changes in the quarterly results compared to the results of the preceding quarter

Group profit before tax for continuing operations of RM303 million for the quarter under review was 6% lower compared with the preceding quarter. This was mainly due to lower profit contribution from Wilmar International Limited in the current quarter. However the grains trading, flour and feed milling and other divisions recorded higher profits; whilst the livestock farming division incurred a loss for the current financial period.

# B3. Prospects for current financial year

The global economic recovery is expected to be slow and uncertain in 2010; and fluctuations in commodity prices and rising freight rates may impact the Group's operating results. However the Group will continue to manage these factors and the Group's results for the remaining period of 2010 should remain satisfactory. With the gain from the sale of sugar-related assets, profit for the financial year 2010 will be higher than that of the previous year.

# B4. Variance of actual profit from forecast profit Not applicable.
