

From The Desk Of The Chairman

DEAR SHAREHOLDERS

We are pleased to announce that PPB Group's revenue was up 20% to RM697 million for the period ended 31 March 2012 compared with the previous corresponding period. The increase was mainly attributed to higher revenue from the grains trading, flour and feed milling division. The property division's revenue increased significantly due to sales of the newly launched highend residential properties in Bukit Segar, Kuala Lumpur. All other divisions recorded higher revenue in the quarter under review with the exception of the chemicals, livestock and investment divisions.

However, the other operating divisions as well as Wilmar International Limited, PPB's 18.3% associate, reported lower profits in 1012.

On 17 March 2012, the staff of PPB Group Berhad (PPB) and their families together with staff of Majlis Daerah Kuala Selangor (MDKS) and Global Environment Centre (GEC), an NGO, gathered at Pantai Remis for a beach clean-up.

QUARTERLY REPORT • 31 MARCH 2012

CSR Activities (CONT'D)

Pantai Remis which is situated approximately 20 km from Kuala Selangor town, is a fishing village popular with day trippers for picnics, kite-flying and leisure. The beach is been a favourite spot for locals who patronise the bazaars selling mostly shellfish at weekends. Sadly, litter especially plastic bags which are not biodegradable are commonly found at the beach.

As volunteers began the clean up, they discovered layers of plastic bags buried in the sand of Pantai Remis. It was heart warming to witness a total of 170 volunteers including children who worked tirelessly to pick up rubbish under the blazing sun. The GEC team led the volunteers for the cleanup in a fun way by organising a small competition for the most rubbish collected by individual teams. At the end of the day, more than half a tonne of rubbish was collected and separated into four (4) categories by the volunteers:-

- Plastic/Aluminium
- Glass
- Paper/Cardboard
- · Unrecyclable items

The event was organised as part of PPB's CSR activity for the environment as well as to bring together the staff of PPB Group and their families, to not only get close to nature but to work for nature. It was also aimed at creating awareness about the importance of the marine habitat and to keep the beach clean at all times. With this in mind, PPB contributed an "interpretative signboard" and two sets of recycling bins for the beach.

The Yang Dipertua MDKS, Puan Hajjah Noraini binti Roslan, was present to receive the contributions from PPB. A strong advocate of green living, Puan Hajjah Noraini in her speech, encouraged the volunteers to start separating and recycling the rubbish in their homes if they had not done so. She also encouraged composting kitchen waste as well as making garbage enzyme.

Reflecting the theme for the event "EVERDAY IS EARTH DAY", the Senior Manager (Corporate Affairs) of PPB, Ms Koh Mei Lee urged the volunteers to practice more green habits in their daily lives and by doing so, encourage others to do the same leading to a healthier, cleaner and better Earth! Ms Koh reminded all that "caring for the environment is not the responsibility of the government alone but everyone's".

B1. Analysis of performance for the financial period to-date

Group revenue increased by 20% to RM697 million in 1Q2012 as compared with RM580 million in 1Q2011, mainly attributed to higher revenue from the grains trading, flour and feed milling division. The property division's revenue increased significantly due to the sale of its newly launched high-end residential properties in Bukit Segar, Kuala Lumpur. All other divisions recorded higher revenue in the quarter under review with the exception of chemicals, livestock and investments divisions.

Group profit before tax decreased by 30% to RM200 million in 1Q2012 compared with RM283 million in 1Q2011. Higher profits were recorded by grains trading, flour and feed milling, property, and investments. However, the other operating divisions as well as Wilmar International Limited ("Wilmar"), an associate of PPB, reported lower profits in 1Q2012.

Grains trading, flour and feed milling

Revenue climbed 30% to RM436 million in 1Q2012 compared with RM337 million in 1Q2011 primarily driven by higher grains trading volume and higher flour and feed sales.

Profit before tax grew by 10% to RM44 million in 1Q2012 compared with RM40 million in 1Q2011 which was in line with the growth in revenue.

Marketing, distribution and manufacturing of consumer products

Revenue achieved in 1Q2012 of RM97 million was slightly higher compared with RM92 million in 1Q2011 mainly due to increased sales.

The marginally lower profit before tax recorded of RM4.3 million in 1Q2012 compared with RM4.9 million in 1Q2011 was mainly caused by higher promotional expenses incurred.

Film exhibition and distribution

Revenue increased by 6% to RM69 million in 1Q2012 compared with RM65 million in 1Q2011 mainly due to improved cinema collections from higher average ticket prices.

Profit before tax for 1Q2012 was down by 17% to RM8.2 million compared with RM9.9 million in 1Q2011 mainly due to lower profit contribution from film distribution arising from weaker Chinese New Year titles and fewer major movies released in the quarter under review.

Environmental engineering, waste management and utilities

Revenue and profits derived from several environmental engineering projects in the quarter under review were broadly similar to the same quarter in 2011. Revenue improved marginally to RM29.8 million in 1Q2012 compared with RM29.5 million in 1Q2011. The division registered profit before tax of RM0.9 million in 1Q2012 compared with RM1 million in 1Q2011.

Property investment and development

Revenue in 1Q2012 jumped to RM19.7 million compared with RM9.1 million in 1Q2011 mainly due to property sales from the newly launched bungalows in Bukit Segar, Kuala Lumpur and sale of semi-detached houses in Taman Tanah Aman, Seberang Prai Tengah.

Profit before tax also improved to RM5.9 million in 1Q2012 from RM4.7 million in 1Q2011.

Chemicals trading and manufacturing, Livestock farming, Investments in equities and Other operations

Revenue reduced by 1% in 1Q2012 to RM84.5 million compared with RM85.6 million in 1Q2011. This was mainly due to lower sales achieved by the chemical trading and manufacturing division from lower contract orders. Livestock farming division contributed lower revenue mainly due to depressed selling prices.

The investments division reported a fair value gain in investment in an equity which was offset by a larger loss incurred by livestock farming division primarily due to lower selling prices. This has resulted a higher loss before tax of RM7.4 million in 1Q2012 compared with RM3.5 million in 1Q2011.

Share of associates and joint venture's profits less losses

Wilmar contributed lower profits of RM141 million in 1Q2012 compared with RM216 million in 1Q2011 due mainly to lower oilseeds and grains margins.

B2. Material changes in the quarterly results compared to the results of the preceding quarter

Total profit before tax	199,654	226,053	(26,399)	-12%

Total Group profit before tax for 1Q2012 of RM200 million was 12% lower than the RM226 million in 4Q2011. The lower contribution from the environmental engineering, waste management and utilities division was due to most of the projects being at completion stage and profits had been progressively recognised in the previous periods. In addition, the livestock farming division registered a loss due to lower selling prices.

Whilst the grains trading, flour and feed milling division, the property division and the film exhibition and distribution division managed to record higher profits, the contribution from Wilmar had reduced by RM36.9 million.

B3. Prospects for the next financial year

The global economy continues to be uncertain in 2012, particularly with the Eurozone problems and slower growth reported by the advanced/emerging economies. The volatility of commodity prices and foreign exchange rates will continue to present challenges to the Group's businesses.

Management is mindful of such challenges and will implement appropriate measures to facilitate growth of the Group's businesses in the coming quarters. The Group is on track with its investment in the flour businesses and the status of these investments are disclosed in note B7 below.

The Group's operations are mainly located in the ASEAN countries and China where the outlook for consumer demand in these countries remains encouraging. The Group is optimistic that the performance for the year 2012 will be satisfactory.
