B. BMSB Listing Requirements (Part A of Appendix 9B)

B1. Analysis of performance for the financial period to-date

Group revenue grew by 5% to RM783 million in 4Q2012, culminating in a full year revenue of RM3.02 billion which represents an 11% growth in FY2012. This was primarily driven by the higher revenue generated from the grains trading, flour and feed milling segment. The property segment's revenue also rose significantly from sales of high-end residential properties in Bukit Segar, Kuala Lumpur and Taman Tanah Aman, Seberang Prai Tengah. With the exception of chemical, livestock and investments segments, most of the other segments recorded higher revenue for FY2012.

The Group registered an increase in profit before tax from RM226 million in 4Q2011 to RM331 million in 4Q2012, largely attributed to higher profit contribution from an associate, Wilmar International Limited ("Wilmar") and the improved performance by the grains trading, flour and feed milling segment. For FY2012, Group profit before tax declined by 13% to RM917 million as compared with RM1.06 billion recorded in FY2011 due mainly to lower profit contribution from Wilmar in the first two quarters of 2012 and losses incurred in the livestock farming segment.

Grains trading, flour and feed milling

Revenue increased by 3% to RM477 million in 4Q2012 and 13% to RM1.85 billion for FY2012, primarily driven by higher feed sales volume in Malaysia as well as increased flour sales volume in Vietnam and Indonesia.

The segment reported higher profits of RM53 million in 4Q2012 compared with RM29 million in 4Q2011 due to favourable grains trading performance in the quarter. Compared with FY2011, profit before tax decreased by 9% to RM122 million in FY2012. Despite higher profits generated by increased feed sales volume, the profits were partly offset by the unfavourable grains trading results in the third quarter of 2012.

Marketing, distribution and manufacturing of consumer products

Segment revenue rose by a marginal 3% to RM94 million in 4Q2012, and 4% to RM389 million for FY2012 mainly due to increased sales from new agency products.

Profit before tax was up by 61% to RM5.8 million in 4Q2012 compared with RM3.6 million in 4Q2011 mainly due to lower advertising and promotional expenses in the quarter. The segment achieved a profit before tax for FY2012 of RM19.5 million, an increase of 1% over the RM19.4 million earned in FY2011.

Film exhibition and distribution

Segment revenue grew by 2% for the quarter under review to RM77 million and by 2% to RM290 million for FY2012. The growth in revenue was largely attributed to four new cinemas which opened during the year as well as the higher income generated from screen advertising.

Profit before tax surged 66% to RM11 million in 4Q2012 and 6% to RM40 million for FY2012 driven by higher profits from the cinemas operations and increase in screen advertising income.

Environmental engineering, waste management and utilities

The segment registered a small increase in revenue to RM49 million in 4Q2012 and RM155 million in FY2012 as compared to the corresponding periods in 2011. This was mainly from the recognition of progressive revenue generated by a new project.

The segment reported a loss before tax in 4Q2012 of RM457,000 and a lower profit before tax in FY2012 of RM9.5 million. The weaker performance was mainly due to completion of environmental engineering projects with higher margins whereby the revenue and profits were progressively recognised in the previous quarters. In 4Q2012, there was an additional cost accrued for rectification works on a completed project.

Property investment and development

Segment revenue rose to RM14 million in 4Q2012 from RM9 million in 4Q2011 and increased to RM81 million in FY2012 from RM37 million the previous year, bolstered by the sales of high-end bungalows in Bukit Segar, Kuala Lumpur and semi-detached houses in Taman Tanah Aman, Seberang Prai Tengah.

Profit before tax for 4Q2012 was RM0.5 million compared with RM2.8 million in 4Q2011. The decrease in profits was mainly due to higher property development expenditure incurred in the quarter. For FY2012, profit before tax was up 43% to RM22 million compared with RM16 million last year as a result of the sales of highend properties in FY2012.

Chemicals trading and manufacturing, Livestock farming, Investments in equities and Other operations

The combined revenue from these segments saw an increase of 12% in 4Q2012 to RM108 million compared with RM96 million in 4Q2011. Revenue for FY2012 increased by 8% to RM414 million compared with RM384 million for FY2011. This was mainly attributable to a full year revenue contribution from the bakery segment compared to 6 months in 2011 coupled with the expansion of distribution coverage for bakery products within Peninsular Malaysia. The increase was however partially offset by reduced revenue from the livestock and investments segments as a result of depressed selling prices of day-old chicks and eggs, and lower income from investments in equities, respectively.

The depressed farm product prices resulted in the livestock farming segment incurring a loss of RM10 million in the current quarter and RM29 million for FY2012 as compared with a profit of RM2.6 million in 4Q2011 and RM12.7 million for FY2011.

Whilst some of the segments delivered profitable results, the combined segment profit before tax were mainly offset by the losses from livestock, which led to the loss before tax of RM2.4 million in 4Q2012 and RM15.8 million for FY2012.

Share of associates and joint venture's profits less losses

Wilmar contributed a higher profit to the Group of RM254 million in 4Q2012 compared with RM178 million in 4Q2011. The higher profit was driven by better performance in most of Wilmar's key business segments with the exception of plantations and palm oil mills, which recorded lower profits.

For FY2012, Wilmar contributed a lower profit of RM694 million compared with RM790 million for FY2011. Despite the stronger performance from its palm and laurics, consumer products and sugar segments, lower profits were reported in oilseeds and grains and plantations and palm oil mills segments.

Compared with the preceding quarter, the Group's profit before tax for 4Q2012 was higher at RM331 million mainly attributed to the favourable grains trading performance and higher profit contribution from Wilmar. Whilst higher profits were recorded in some of the Group's business segments, the Group's overall results in this quarter was trimmed by lower profits from the environmental engineering and property development segments as well as the losses incurred by the livestock farming business.

B3. Prospects for the next financial year

While the overall global economic uncertainty continues to be a concern in the coming year, the economies of the emerging markets including China and India are expected to remain resilient, partly supported by domestic consumption.

As the Group's business divisions are predominantly within the ASEAN region and China, it is anticipated that they will perform well in financial year 2013. Notwithstanding this, the Group's overall financial results for 2013 will continue to hinge largely on Wilmar's business performance for the coming year.
